News from BHBB

Bucklers Hard Boat Builders Ltd — Expanding.

We are pleased to confirm that our operations are expanding with a second unit in Hythe Marina.

BHBB have always been proud of providing a customer focused operation and by refocusing the Boat Yard Services operations to become much more proactive, using an easily accessible location this will only improve.

The location in Hythe has the added advantage of having two fully sealed inside spaces to carry out works including refinishing operations.

BHBB will retain a presence in the Bucklers Hard Marina with a Service Facility running alongside the Bucklers Hard Brokerage office, so we will be capable of maintaining service levels for all our existing customers on site. The Hythe operation enables us to offer expanded services with both the location and all weather capability.

Chris Clayton BHBB Managing Director stated *'This is a significant step in our process of continued business improvement, ensuring our customers continue to benefit from our offerings. We focus on the quality of our service and the operations we carry out'*

Dave Retires from BHBB

Dave has decided to take early retirement from Bucklers Hard Boat Builders due to health reasons.

It was a big decision to take but in the end a quite clear and simple one. Following an operation he shall retire to France and return to UK from time to time.

It was all quite sudden once a date for the operation was appointed and we had an emotional farewell for Dave on the 2nd October.

I have known and worked with Dave for a great many years and he is going to be sorely missed.

We all wish him the very best for a much improved health and a very happy retirement with his wife Karen. I shall of course update all of you who are interested to know of Dave's well being.
